### Full job description

Our client is a **well established and highly successful civil** firm who specialise in civil construction, road rehab. With a strong family culture, they are well known in the Victorian market for delivering on challenging and complex projects in the subdivision and land development market.

We are seeking a skilled **Senior Surveyor** or a Surveyor looking for career progression to join this outstanding firm and take on **large civil projects** across Melbourne Western & Northern Suburbs. Salary is based on experience but you can expect between **\$110k - \$140k + Super & Vehicle (Personal Use)**

The Senior Surveyor will report to the Survey Manager and will help manage the surveying requirements including the fieldwork & calculations required for project.

#### About the Role

- An exciting opportunity to work on some of Melbournes most Iconic Civil Infrastructure Projects
- Responsibility for all survey tasks on site and associated office computations and reductions
- Access to the latest survey technology and well equipped, modern survey vehicles
- Liaise with contractors, clients, landowners, local authorities, and internal and external stakeholders

#### About You:

- A degree qualified in Geomatics, Spatial Science, Surveying (or equivalent experience)
- Strong working knowledge (5+ years of experience) of large scale infrastructure projects
- The ability to use a range of survey related technology and software
- A self-starter, with a high level of initiative

- Consultative and approachable, with good communication skills
- Have an eye for detail
- Experience on delivering infrastructure projects
- The ability to lead a small team of surveyors
